Nationality

Paraguayan

Date of birth

21/04/2005

PROFILE

"Computer Engineering student at the Polytechnic Faculty of the National University of Asunción. Currently immersed in my first semester, I've honed strong programming skills, particularly in Python. My portfolio already includes the creation of tools such as calculators, password generators, and list sorting programs. My long-term focus is to become a highly competent computer engineer, leveraging my quick learning ability and constant desire for self-improvement. I stand out for my proficiency in English, an additional skill that enhances my profile and broadens my possibilities to make meaningful contributions in multidisciplinary professional environments."

EDUCATION

Primary completed, South American Christian School, Fernando de la Mora, Central

2012 — 2019
